

## **Slow Play Policy Update**

January 18, 2010

When the ranger encounters a group that has fallen more than 1 clear hole behind the group in front of them (tee to tee or green to green) and is behind the recommended pace of 2 hours and 5 minutes per nine holes, the ranger will notify the group of their slow play and inquire if there is anything he/she can do to help the group maintain pace of play. If the answer is no then the ranger will let the group know that they are behind and if they fall more than 15 minutes behind pace and still have more than 1 clear hole open in front of them that we will be asking them to move to the Green Tees until they regain their position on the course.

Once the group has regained their position on the course they may return to the tees they were originally playing.

This policy will be in effect for all daily play and for League Play. It will be at the discretion of the Board of each league as to how they would like to score their events in the event that this happens.

Score posting in the Handicap Computer should be par plus handicap strokes for the holes played from the Green Tees.
